Aquatique Show: Associate Partner of the France Pavilion at the Osaka World Expo 2025

Justine Emard ©ADAGP Paris, Studios GSM Project

Aquatique Show, a world reference in the creation of water shows is proud to announce its partnership with the France Pavilion for the Osaka World Expo 2025, which will be held from April 13 to October 13, 2025, with the theme: "Designing Future Society for Our Lives".

With the creation of a water effect in the space of the Gold Partner, Ninapharm, Aquatique Show aims to highlight French know-how in innovation and creation.

With over 45 years of expertise, Aquatique Show designs unique water effects and shows around the world. Since its creation, the company has been a reference in the creation of permanent water shows, as well as in the installation of temporary shows for local, national, and international events.

Aquatique Show is committed to limiting its ecological impact. Aware of the scarcity of water, the company designs installations and technologies that enable responsible and sustainable use of this precious resource. Water is used in a closed circuit, without the addition of products, and the materials used in its equipment do not release harmful products.

As part of the Osaka World Expo 2025, Aquatique Show wishes to go beyond the simple show by offering an experience that not only highlights French know-how but also proposes a reflection on current environmental issues.

The France Pavilion will thus be a place where art, technology and respect for the environment meet to imagine a sustainable future, through water installations that are both innovative and respectful of the planet. Expo 2025 in Osaka represents an opportunity for Aquatique Show to demonstrate its creativity and share its vision of a future where art and technology blend perfectly to amaze spectators.

About Aquatique Show :

Aquatique Show is a French company specialized in the design and production of water effects and shows worldwide. Since its creation, it has carried out emblematic projects for international events, theme parks and urban installations, offering unforgettable experiences to visitors and spectators.

About the France Pavilion at the Osaka World Expo 2025 :

The Osaka World Expo 2025 (Japan) will be held from April 13th to October 13th, 2025 under the theme "Designing the future, imagining tomorrow's life", with three sub-themes: "Saving lives", "Inspiring lives", "Connecting lives". The event will take place on Yumeshima Island, a 155-hectare artificial island in Osaka Bay, designed by architect Sosuke Fujimoto. All the pavilions will be connected by a "roof ring" measuring 615 m in diameter and 2 km in circumference, and divided into three macro-zones: Green world, Pavillon world and Water world. Over 160 countries will be represented, and 28 million visitors are expected to attend the event. The France Pavilion, whose ambition is to showcase French innovation and know-how, will be located in the "Empowering lives" section, close to the Japan Pavilion and the main entrance of the World Expo.
